

PATIENT TESTIMONIAL

Patients Name: Eileen Ke

Date of Surgery: 10/4/13 Type of Surgery Partial hip replacement

Not only is Dr. Bradley Boyd an extraordinary surgeon but also a caring, gentle human being. I feel so fortunate that he was available for my emergency procedure in October, 2013. From the moment I met him (and his staff), I trusted him and his recommendations.

During one of my follow-up visits, he tried to credit my speedy recovery to my efforts in rehabilitation. Uh, huh! He deserves 70% to my 30%.

I appreciate Dr. Boyd's warmth and caring demeanor - from his initial hand-shake to patience with answering my questions. I never feel rushed. I credit him with my return to my life as I knew it - caring for three children and their myriad needs - in only two months!

I look forward to my continued relationship with Dr. Boyd in my quest for improved physical health. He is a wonderful physician and caretaker!
